Erasmus + e-Skills Meets in Florence, Italy

• Partnership Planning Meeting, ARCI, Florence, Italy

The partnership was formed through previous transnational project work which the groups have worked together on, to provide quality innovative training opportunities for adult learners.

The third programme planning meeting of the e-Skills for Inclusion took place in Florence, Italy in October 2017. Hosted by our partner ARCI, the group met to further implement the project plan and the course modules which will inform the 'training of trainers' activity and the learning programme for the participant over the next 3 years. Each partner is working to develop the comprehensive modules, PowerPoint presentations, learner resources and evaluation techniques.

The course Scheme of Work and outline lesson plans were agreed and testing will take place in each jurisdiction.

• Partnership active learning in Florence

• Group Networking Dinner

Cultural Opportunities with Erasmus+

The partnership took advantage from the cultural learning opportunities available whilst in the Tuscany region of Italy. Language skills, cultural, culinary activities provided networking opportunities for the organisational staff to unwind after the training for the day concluded.

Development of Key Training Content

• *Developing Bespoke Training Modules*

The training will be designed to encourage and educate disadvantaged people in the key benefits of digital technology.

In addition to day to day benefits of online shopping, the high level impact we want to achieve is active contribution to EU 2020 and addressing the digital disadvantage experienced by many, and to open access to the open source training available via the Erasmus+ platforms.
